This is one not to missed. THEPETEBOX is playing at the Manchester Deaf Institute on 5th July as part of his UK mini tour between a summer of festivals.

Fresh from playing a packed out Glastonbury, THEPETEBOX embarks on his first UK headline tour. In our opinion the UK's best beatboxing performer, Petebox will be showcasing his unique brand of music creation and performance, combining world class beatbox skills, guitar and live production with his renowned ability to get your heart pumping and your feet stomping that has seen him rock stages at major clubnights and festivals across the globe.

This is definately one that you simply cannot miss. Anytime we've seen Petebox play, we just stand there mouths open in awe at what this guy can do with his vocal chords. Absolute legend.
